**So we have 3 types of bos.**

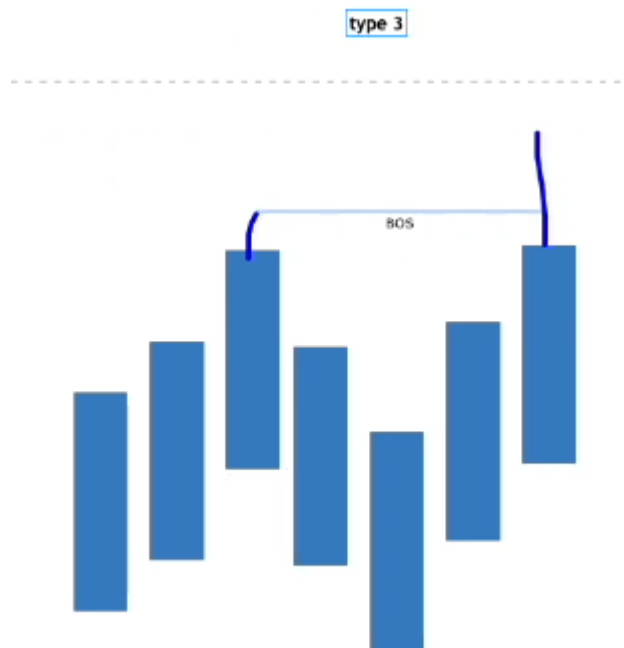

So type 1 when we use the wicks as to mark our high, so that is the high and type 1 is when the body is breaking the wick. This is the one that vertex prefer.

So type 2 is when we the body is being broken by the body. Now personally for use, we don't like that we prefer type 1, because the candles hold a lot of information, we prefer having this one, but this is still a bos, so we can ignore the wicks as long as the body breaks the body.

The reason why we don't like this type is because wicks have a lot of information.

So type 3 is a wick break, now I hate this ones but its up to you. So we have the wick high and then its broken by this wick and if we think about it from this perspective that is a bos for some people.

The reason why we don't like this one is because we know when we get a huge wick like this we know the sellers are taking over, so this is basically seen as a rejection.

┃ All this type of bos are valid, but we prefer type 1.
